The Rainbow Fish

THE RAINBOW FISH

FOR GRADES K-6

With shiny, multi-colored scales, Rainbow Fish is the most beautiful fish in all of the ocean, and the only one of their kind. When Rainbow Fish refuses to share their vibrant, shimmering scales, the whole ocean seems to turn against the vain creature. Unhappy that no one adores them anymore, the Rainbow Fish seeks out the wise Octopus, who helps them learn that it's far better to be admired for being kind than for being beautiful. This exciting show is based off of the book of the same name!

HUFF, PUFF AND SCIENCE FAIR STUFF

FOR GRADES K-6

The big end-of-the-year volcano science project is coming up, and the three little pigs are approaching it differently. Piper has been diligently planning her project for six months. Pepper has been thinking about the project, but has also spending days watching youtube videos... and Penelope has been daydreaming about what different clouds look like as they float by. When Willie the Wolf realizes the projects are due tomorrow, he turns to bullying the pigs in an effort to use their projects as his own. Enjoy this anti-bullying twist on a loved story!

OUR PROGRAM:

Walnut Street Theatre celebrates over 40 years of bringing high-quality professional theatre to schools across the Delaware Valley. Our multi-cultural Touring Outreach Company introduces students to the art of theatre through age appropriate, curriculum-based pieces, which are socially relevant, entertaining and exciting. The Touring Outreach Company performs up to 300 shows each year, reaching more than 60,000 students annually. Each season we offer new productions and travel to schools and community organizations in Pennsylvania, New Jersey and Delaware. These low-cost programs help teachers link theatre to their curriculum, making theatre available, accessible and engaging.
